

Judiciary Committee
House Bill No. 5488

The Honorable Committee Members:

Anyone with a conviction for Manslaughter and all violent crimes should be eliminated for the good behavior credit

I was informed by the Victim Advocate Office that offenders of violent crimes are getting time off their sentence. Public Act 11-51 the legislation passed, this is a bill that gives credit off a criminals sentence on good behavior. This means that the person who killed my son, Frank Rosa is getting time reduced from his sentence, and has already received some of the credits,. This is an outrage his sentence was already reduced when he accepted the plea under the Alford Doctrine.

We never thought that his sentence someday would be decreased for killing another human being.

My son can't speak on his behalf and can't get anytime back for his good behavior. My son is gone forever please do not forget about the victim because you do not a face to see.

All the years my children and I had to deal with the lost of Anthony, Son, Brother and now this is a another insult to us after losing my son and the pain we are dealing with from day to day this is another wound.

This is a betrayal to my son's memory.

Respectfully,
The Mother of a son of a violet crime.

Virginia Amendola
